

Sub (Gen 3)

The wireless subwoofer for deep bass

SONOS

Hear and feel the difference when you connect Sub to any Sonos system.

No buzz, just bass

Two force-canceling drivers at the center of Sub eliminate vibration and rattle so you get powerful bass without any distortion.

Lower lows and higher highs

Sub takes over the lowest frequencies, enhancing the midrange playback from paired speakers so you experience fuller, more detailed sound.

Made to be seen and heard

The award-winning and versatile design features a slim, sculptural shape and high-gloss finish. Stand Sub upright or lay it on its side.

More immersive entertainment

Connect Sub to Arc or Beam, and enjoy TV, movies, and video games like never before. Add a pair of One SL surrounds for an even more immersive home theatre experience.

Tech Specs

2 Class-D digital amplifiers perfectly tuned to the acoustic architecture.

2 force-canceling drivers face inward for powerful bass without any cabinet buzz or rattle.

Operating Temperature: 32°F to 104°F (0°C to 40°C)

Connects to your WiFi network: with any 802.11b/g, 2.4 GHz broadcast-capable router.
